

Technical information

About the unit:

- Wireless relay for security and automation applications
- Operating temperature: -10°C to 55°C
- Relative humidity: 0% to 95% non-condensing
- Part code: GHG-0001
- Texecom Connect App compatible

Specifications:

- Input Voltage: 110-240V AC
- Max (Switched) Current: 7A @ 250V AC

Wireless:

- Connectivity: Ricochet wireless
- Frequency: 868MHz
- Learn Process: Press and hold button
- Receiver LBT: Listen before talk
- Transmitter Duty Cycle: <1%
- Max RF Power: 10mW

Relay:

- Relay type: Normally open
- Operation: On/Off & pulsed

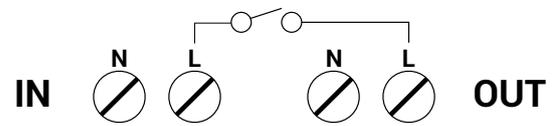

Warranty:

- 2 years
