

ATS 16-way clocked open collector card

ATS1820

ATS 16-way clocked open collector card

A 16 way Clocked Open Collector Card provides sixteen 50mA Open Collector Outputs with connections provided for either direct connection to the Open Collector output or via 1.5kOhm resistors for LEDs. Clocked Open Collector Cards can be fitted to the ATS control panels or DGP and when connected together in daisy-chain fashion can provide up to 255 outputs when connected to the ATS Control Panel.

Specifications

| | |
|-----------------------|--------------------|
| Supply voltage | 10.5 - 13.8 VDC |
| Operating current | 50 mA |
| Dimesions (W x H) | 80 x 52 mm |
| Operating temperature | 0° to +50°C |
| Humidity | 95% non condensing |

Ordering Information

| | |
|---------|--|
| ATS1820 | ATS 16-way clocked open collector card |
| ATS1810 | ATS 4-way relay card |
| ATS1811 | ATS 8-way clocked relay card |
| ATS1821 | ATS 8-way clocked open collector card |
