

We're required to make some changes

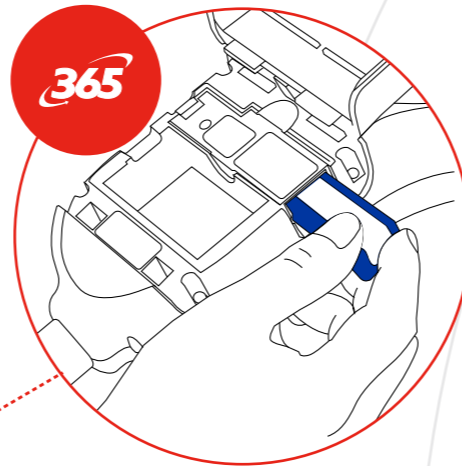

To comply with Regulation 517-2014-EC, we're required to make some changes to the aerosol smoke canisters we have available.

What's Changing?

Manufacturing of Solo A3, Chekkit and Canned Smoke aerosols will end by **31st December 2017**.

Solo A3 Replacements

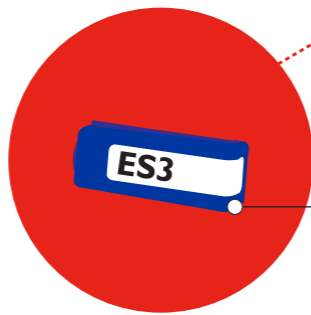

We have two new aerosols – Solo A5 and Solo A10 which can be used in the Solo 330 dispenser. We will also have a new tester, Solo 365, which moves completely away from a reliance on pressurised aerosol canisters.

Solo A5 - An aerosol smoke detector tester for use with Solo 330. (Flammable)

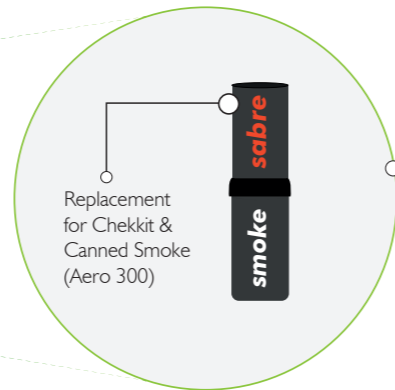

Solo A10 - An aerosol smoke detector tester for use with Solo 330. (Non-Flammable)

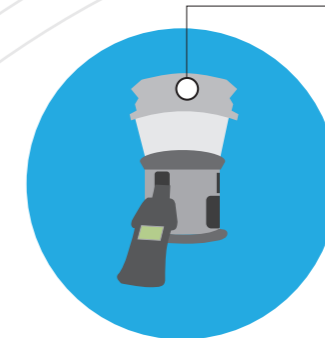

Solo ES3 - A non-pressurised smoke cartridge for use with Solo 365. (Non-Flammable)

Chekkit and Canned Smoke Replacement

SmokeSabre - hand-held smoke aerosol for testing smoke detectors

2017/18 Product Range

Testifire - The all-in-one test solution for Smoke, Heat and CO

Solo 365 - Innovative smoke detector tester - using non-hazardous, non-pressurised cartridges

For use with Solo 330
